FOREWORD

Dear Members,

Global pandemic caused by the Covid-19 virus has reshaped our perceptions and decisions in most areas of life. The disruption has not only been unforeseen but also powerful and widespread—to such an extent that the recovery is defined as adaptation to a new normal. As the vaccination processes now being questioned with the new variants, the normalization may last many years.

Unlike most industries, challenges and uncertainties faced by the financial industry were offset to a certain degree with the great influx of investments and the expansion of investor base in the capital markets. To this end, as market infrastructure operators, we should explore and implement radical solutions in order to manage risks promptly and make this expansion sustainable and beneficial for all stakeholders in the long-term.

OIC Exchanges Forum (OICEF) serves as a unique platform for the capital markets institutions of OIC Member States (Members) that enables development of long-term and fruitful relationships while cultivating cooperation and knowledge sharing. While the annual forum meetings set the stage for discussing a wide range of challenges, opportunities and ideas, task forces enable members to undertake specific projects in collaboration over relatively longer periods.

Published by the OICEF Secretariat with the valuable contributions of our Members and public resources, annual OICEF Statistics Report serves as a valuable source of aggregated and consolidated information on OIC markets. The report also includes analysis of data in comparison with global markets as well as key statistics on Islamic capital markets.

I would like to thank all members who made the preparation of this report possible by providing data through the annual survey. We hope that the report will be instrumental in enhancing our knowledge base on OIC markets.

Korkmaz ERGUN

Chairperson OIC Exchanges Forum

ABOUT THE ORGANISATION, THE COMMITTEE AND THE FORUM

The Organisation of Islamic Cooperation¹

The Organisation of Islamic Cooperation (OIC) is an inter-governmental organization that represents the Muslim world with 57 Member States and endeavors to safeguard their interests in the spirit of promoting international peace and harmony. It was established upon a decision of the historical summit in Rabat on 25 September 1969, following the criminal arson of Al-Aqsa Mosque in occupied Jerusalem. Secretary General of OIC has been Dr. Yousef Ahmed Al-Othaimeen since 2016.

Standing Committee for Economic and Commercial Cooperation of the Organisation of Islamic Cooperation²

The Standing Committee for Economic and Commercial Cooperation of the Organisation of the Islamic Cooperation (COMCEC) was established by the Third Islamic Summit Conference of OIC in 1981. Chaired by the President of the Republic of Turkey, it is the main multilateral economic and commercial cooperation platform that of the Islamic world, which convenes annually at ministerial level in İstanbul.

Some of its objectives are to address the economic challenges of the Islamic Ummah, to contribute to the development efforts of the Member States, to draw up programs and submit proposals designed to increase the welfare of the Member States, and to ensure the overall coordination of the activities of the OIC relating to economic and commercial cooperation among the Member States.

The Organisation of Islamic Cooperation Exchanges Forum³

Established consequently to the 20th Session of the COMCEC in 2005, The Organisation of Islamic Cooperation Exchanges Forum (OICEF) provides a dedicated, centralized and cultivating platform for 44 national and 2 regional stock exchanges, 13 commodity exchanges, and 22 central securities depositories (CSDs) (Members) in 48 out of 57 OIC Member States (Annex I). OICEF serves as a communication channel within a collaborative framework for the representatives of Members and relevant OIC organizations and institutions—enabling cooperation among shareholders in developing Islamic capital markets and strengthening their relationships.

As the Secretariat of OICEF (Secretariat), Borsa İstanbul has been hosting annual Meetings, leading the Task Forces, and publishing annual Statistics Report (Report) and quarterly Newsletter with the contribution of Members. Annual Meetings set the stage for briefing on activities, sharing experiences, discussing ideas on challenges and opportunities. Task Forces undertake long-term projects, currently focusing on precious metal, indices and sustainability—through which Members collaborate to develop long-term and fruitful relationships. The Report and the Newsletters serve as valuable sources of aggregated and consolidated information regarding Members.

³http://www.oicexchanges.org/

ABOUT THE SURVEY AND THE REPORT

The Report presents individual and aggregate capital markets data for Members. The data is primarily provided by the Members who participate in the annual Survey. In order to extend the representation of the Report to a meaningful level, additional public data regarding Members who have not participated in the survey is collected from their official websites and World Federation of Exchanges (WFE) Statistics Portal. Report also includes analysis of data in comparison with global markets as well as key statistics on Islamic capital markets.

The survey for the exchanges focuses on key figures about the capital market products available for trading at the Member Exchange categorized in asset classes. The section on Sharia-compliant securities in the exchange survey captures the organized Islamic capital markets data—which is not easily accessible. The format of the survey has been standardized where the terms and definitions have been adopted from the definitions of the international exchange federations. The glossary of terms, along with the previous reports, is published at oicexchanges.org for reference in order to avoid misinterpretations.

The patterns, trends, and other results presented in this Report are based on the datasets of 20 stock exchanges, which are referred as "OIC Stock Exchanges" collectively. 15 of the 20 OIC Stock Exchanges have responded to the Survey (Annex II) while the data for the rest of the OIC Stock Exchanges were sourced from WFE. Members whose data for certain categories could not be obtained from the available sources are excluded from the relative calculations.
